

Environmental Statement

P&B Metal Components recognises that our business activities can have an impact on the environment and as such we as a company are committed to minimising and managing that impact.

Whilst these responsibilities fall to all employees, management are primarily responsible for ensuring all environmental compliance is met by the business during all its activities.

P&B will exercise due care in preventing pollution from the waste produced, as a result of our company activities. P&B will continually strive to develop plans to reduce waste and emissions as a result of our activities, P&B will also strive to reduce energy usage and inform, instruct, train and supervise all of our employees in order to do so.

To ensure our environmental policy is relevant, progressive and regularly updated, we will follow the following guiding principles:

- We aim to protect the environment and reduce our impact on the environment and will seek to implement environmentally responsible processes and procedures throughout our operations.
- Comply with the requirements of environmental legislation and integrate approved codes of practice into our business operations.
- Seek to reduce our consumption of resources and improve efficiency in the use of these resources.
- Ensure energy and water is used efficiently in all activities to minimise the consumption of natural resources and energy.
- Promote the reduction, re-use and recycling of waste materials in all working activities to conserve resources and reduce waste disposal.
- Raise awareness and encourage participation in environmental matters through discussions and training sessions for employees upon induction and at appropriate intervals.
- We will select waste contractors with aims to recycle our waste or dispose of in line with current legislation and best practice and ensure that all correct documentation and licenses are held and current.
- All chemicals and substances used and stored on site are secure and measures undertaken to prevent spills and leaks into the environment.

P&B Metal Components Ltd. accepts its responsibilities towards the protection of the environment and issue this statement as a commitment of all employees to minimising the environmental impact of our operations.
